Rifugio Selleries can be reached from the SR 23 Sestriere main road, by taking road SP 172 at the junction in the hamlet of Depot. Follow this for about 7.7 km, then continue along gravel road that winds up from the hamlet of Prà Catinat for about a further 7.5 km. There is ample parking and an area equipped with picnic tables.

Descrizione

From the Rifugio Selleries notice board in the car park, follow **path 337**, towards Monte Orsiera, Lake Ciardonnet, Colle del Sabbione.

The track reaches a plateau with a junction: left leads to the *Bergerie del Ciardonnet* (Alpine Dairy) and Monte Orsiera (336A). Our itinerary continues instead to the right and, after a flat stretch, heads up towards the hanging valley of Rio Malanotte and runs along it for a long stretch.

Instead of heading towards the head of the small valley, where the Colle di Malanotte is located, head steeply up to the left (north) to reach the vast plateau of **Colle del Sabbione** (2569 m), from where the valley of Susa appears and the imposing pyramid of **Rocciamelone** .

From here, take **path 510** , which descends quite steeply and with numerous hairpin bends to the *Bergerie del Balmerotto* (Alpine Dairy) (2107 m), crossing the junctions with the paths for Alpe Aciano and Porta del Chiot and then finally reaches Rifugio Toesca, on Pian del Roc.
