Descrizione

Starting **from the concentric of Baldichieri**, we continue northwards, towards Castellero. After a short stretch along the asphalt road, we turn left at a dirt path that creeps through the hills and, through wooded areas we arrive at Vallotte. Here we cross SP12 and walk along the road that climbs the ridge of the hill and leads directly to **the center of Castellero**. From the main square we can admire a **splendid panorama** that opens on the valley below and **as far as the Alps**.
