Descrizione

This stage departs from the Abbey of Vezzolano, a religious Romanesque monument of national architectural importance.

There are also stopping points here on the hiking trails of the Superga-Vezzolano-Crea and the Chivasso-Vezzolano routes.

The route starts in a southerly direction, running along by the village of Pogliano and further ahead the village of Mistrassi and then Bardella.

Near the cascina Lombardore, in the administrative area of Castelnovo Don Bosco, there is the Romanesque church of Santa Maria di Cornareto and a short distance away is the Tamburnin Estate.

Going further still towards the south, it crosses the villages of Freis and Nestra to finally reach the point near to the Romanesque church of Sant'Eusebio.
