Descrizione

The Grande Traversata delle Langhe (GTL) is a tour that encompasses an entire territory, the Langhe. Forget about wine and vineyards, which have only a marginal presence in this tour. Here, you will find pristine nature, cheeses, hazelnuts, castles, and medieval villages where time seems to have stood still. Not far from Alba, you will find a whole other world in which to admire one-of-a-kind landscapes and enjoy all the activities that nature provides in this lovely corner of the world, from hiking to off-road cycling.
Because just one itinerary would never be enough, the GTL provides several that take you to virtually every village, allowing you to choose from hilltop routes or specific itineraries from one village to another. All the routes make use of low-traffic streets, dirt roads, woodland trails and the distances are never excessive, although there are a few longer sections that are recommended mainly for experienced cyclists in good physical condition.
There are technical sections in places, but these can always be overcome on foot, carrying or pushing your bike, or by making use of paved routes or public transit between villages.
